*And Then the Roof Caved In: How Wall Street's Greed and Stupidity Brought Capitalism to Its Knees* by David Faber

Explore in this title how the sub prime mortgage companies led to the collapse of the housing bubble and began a domino effect throughout Wall Street and then the global economy. This title covers securitization, the Federal Reserve, the lending practices of banks and businesses, CDOs, tranches, mortgage-backed securities, mezzanine financing, hedge funds, and how all of these entities and financial instruments tied together to create an economic crisis not seen since the Great Depression.

## Debt & Credit Conundrums

*Bad Money*  
by Kevin Philips

This title covers in grand scope, how the United States arrived at its present economic turmoil from the creation of a debt and credit laden system to the shift from manufacturing to financial services. This is an eye opener book.
